SPA TREATMENTS

SERENITY AND TRANQUILITY AT OUR LUXURIOUS SPA

Relax, unwind, and indulge yourself in a superb and tranquil sanctuary.

Just a few minutes' walk from your own front door, you will find a spa reserved exclusively for you, your family, and a select group of like-minded guests from a safe gated community. You begin to imagine the Lower Mill Estate spa but until you actually enter this very special space, it's hard to conceive just how beautiful this modernist facility is. A delightful sanctuary, where stress-free indulgence achieves its' most sublime expression.

There's a bracing outdoor eco-pool, naturally filtered by water lilies. There are two more 20m heated swimming pools, a steam room, a sauna, a Technogym equipped gymnasium, and a restful reading lounge. In our treatment rooms, sweetly scented with essential oils, you can sample over sixty gentle therapies: luxurious hot stone massages, body wraps, facials, pedicures and manicures, all designed to relax and rejuvenate mind and body, all using soothing, botanically sourced ingredients and products from Natural Spa Factory.

Natural Spa Factory was founded by husband and wife team Emma and Jeremy in Bath in 2009 – where they are still based, surrounded by the Somerset countryside that is the inspiration for all of the botanically sourced, chemical free products. The ingredients are all derived from nature – such as herbs, plants and flowers – and all of the products are free from microbeads, parabens, SLS, MCI and methylisothiazolinone. None of the products are tested on animals and all are made either here in the UK, or in the home of scent - France. The products are truly inspired by the seasons and the food loved by us all. The result is a collection of natural and beautiful products that inject goodness and wholesome nourishment into body and skin; boosting you from the outside in.
